

Abdominal Bloating

One of the most common grievances that the majority of patients present with is stomach bloating. It can be rather a discomforting and agonizing condition to deal with, and takes place when there is any deviation from digestion health. In addition, identifying the specific reason for it is challenging as the symptoms and signs that patients present with are extremely common, and are common to a lot of gastrointestinal conditions. Nevertheless, after running a few tests, it is possible to identify and deal with the origin of the issue.

Consuming Meals Quickly

The practice of having lunch or supper very fast can take a toll on your stomach. They chew the food a few variety of times then simply gulp it down. This improper way of eating food or drinking water quickly can set off stomach gurgling.

On Dr Littens System I Lost 8 Ibs the First Week

And then went on to drop 44 lbs. As a firefighter I was concerned about the loss of strength, which I had actually experienced on other diets. Nowadays, You Might Come Across Two Kinds of Licorice Items

One with glycyrrhizic acid and the other without that compound. The most typical side effects of licorice roots include headache, breathing difficulty, water retention, stomach ache, and joint stiffness. Long-lasting use of this herb has been connected to problems, like hypertension, edema, liver issues, kidney illness, and pseudoaldosteronism. According to a study carried out by the European Commission in 2008, excess usage of licorice with glycyrrhizic acid may result in muscle weak point, persistent tiredness, headaches, inflammation, and low testosterone levels in men.

Adverse Effects

Like many other herbs, excess usage of licorice might trigger specific negative effects. Generally, such negative effects are related to factors, like excess consumption, interaction with other drugs, and the physical condition of the user. In case of licorice, research studies suggest that the presence of glycyrrhizic acid is the reason behind such negative effects.
