## Causes

Distended belly, also called pot belly, can occur due to a number of factors, the most common being lack of exercise. The causes are given below:

## Constipation

Irregular bowel movement can also contribute to belly distention. People experiencing regular episodes of constipation, have distended abdomen. Reduced defecation, often gives rise to swelling in the upper abdominal area. This distended midsection is often the result of build up of feces in the intestinal tract.

IbsIbs Causes

## Lemon Honey Concoction

Kick start your day with a glass of warm water, with a slice of lemon squeezed in and a spoonful of honey. This mixture takes care of all your stomach ailments. However, it is a must that you should not eat or drink anything prior to drinking this mixture. Apart from eliminating gas, it also enhances skin complexion, minimizes weight, and causes a feeling of healthiness.

## Allergic Reactions

People who are allergic to this essential oil are likely to experience its side effects that manifest in the form of skin problems (hives, rashes) and this may be followed by inability to breathe properly.
